BALQEES AL-KHATEEB

Full-Stack Developer | MERN Stack Trainer

+962787023107 Balqees.alkhateb@gmail.com balqeesalkhateeb balqeesalkhatib Portfolio

PROFILE

Technical Instructor and Full-Stack Web Developer with 3 years of experience in software development, technical training, and mentoring over 100 students. Proficient in the MERN Stack, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and modern frontend technologies. Experienced in designing and delivering hands-on training programs, mentoring students through real-world full-stack projects, and guiding application deployment. Combines practical software development knowledge with a Quality Assurance background in manual testing, automation using Cypress, and API testing with Postman. Passionate about project-based learning, problem-solving, and developing industry-ready technical talent.

WORK EXPERIENCE

DIGITAL OPPORTUNITY TRUST (DOT JORDAN)

Technical Instructor | January 2026 – Present

- Deliver hands-on Full-Stack Web Development training, guiding students from foundational programming concepts to building complete MERN Stack applications.
- Design and deliver hands-on training sessions covering front-end and back-end development technologies.
- Mentor students through real-world projects, providing technical guidance and debugging support.
- Develop interactive learning activities focused on problem-solving, critical thinking, teamwork, and collaboration.
- Assess student progress and provide constructive feedback to improve technical competencies.
- Guide students in developing practical applications and preparing for real-world software development challenges.

MERAKI ACADEMY

Operations Assistant (Full-Time) | June 2025 – January 2026

- Coordinated academic schedules and managed operational requirements for student cohorts.
- Prepared academic and logistical arrangements to ensure smooth training delivery.
- Organized student interviews and technical assessments to evaluate readiness and support placement decisions.
- Delivered instructional sessions and lectures to support students' technical development.
- Collaborated with trainers and academic teams to coordinate training activities and improve the learning experience.
- Used Notion, Trello, Microsoft Excel, Google Workspace, and Slack to coordinate operations and manage workflows.

MERAKI ACADEMY

Technical Instructor / Teaching Assistant (Part-Time) | August 2024 – June 2025

- Supported the delivery of programming courses covering HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Provided individualized technical support by troubleshooting code issues and explaining programming concepts.
- Evaluated student assignments and provided detailed, constructive feedback.
- Assisted students in developing programming skills through practical exercises and hands-on activities.
- Delivered HR interview preparation sessions to improve students' communication and job interview skills.
- Mentored students in problem-solving, debugging, and software development fundamentals.

JO-STUDENTS ACADEMY

Quality Assurance Engineer | July 2024 – March 2025

- Created and executed test cases and test scenarios based on software requirements and specifications.
- Performed manual and automated testing to identify functional issues and ensure application quality.
- Developed automated test scripts using Cypress for web application testing.
- Conducted API testing using Postman to validate endpoints, responses, and application functionality.

- Identified, documented, and tracked software defects using Trello and Microsoft Excel.
- Collaborated with development teams to investigate issues and support timely bug resolution.

JORDAN UNIVERSITY OF SCIENCE AND TECHNOLOGY (JUST)

Electronics Laboratory Teaching Assistant | October 2020 – January 2021

- Assisted in delivering undergraduate Electronics Laboratory sessions.
- Explained theoretical electronics concepts and demonstrated their practical applications.
- Guided students through laboratory experiments, procedures, and technical measurements.
- Provided hands-on assistance during experiments and helped students understand laboratory results.
- Supported students in applying theoretical engineering principles to practical laboratory tasks.

EDUCATION

JORDAN UNIVERSITY OF SCIENCE AND TECHNOLOGY (JUST)

Master's degree of Electrical Engineering – Wireless Communications | Jan 2019 – Jan 2023
Master's Thesis: Optical Orthogonal Frequency Division Multiplexing with Index Modulation (O-OFDM-IM)

AL-BALQA APPLIED UNIVERSITY | FACULTY OF ENGINEERING TECHNOLOGY (FET)

Bachelor's degree in Telecommunications Engineering | Jun 2013 – May 2017
Graduation Project: Wireless Mobile Charger

CORE COMPETENCIES

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS, Sass.

Backend Development: Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL, Firebase, Socket.IO.

Development Tools: Git, GitHub, Deployment, Vercel, Netlify.

Software Quality Assurance: Manual Testing, Automated Testing, Cypress, API Testing, Postman, Test Case Design, Bug Tracking, CI/CD.

Training & Mentoring: Technical Instruction, Curriculum Development, Project-Based Learning, Code Review, Debugging, Student Mentoring.

Professional Skills: Problem-Solving, Critical Thinking, Communication, Teamwork, Presentation Skills, Agile/Scrum.
